

# Partial Implementation

## *Lens on Learning (Part 1)*

### Activity Process:

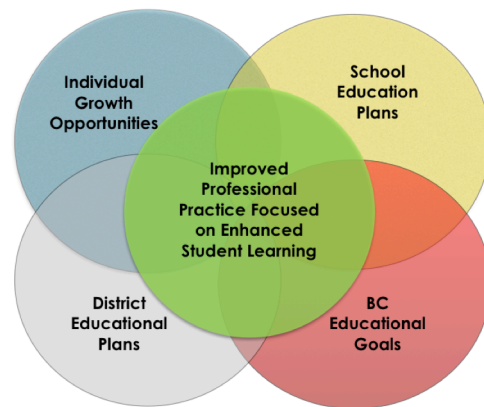

1. Staff Activity: Provide small groups of stakeholders with copies of goals from the school, district, and ministry (4-5 people per group).

**Big Idea:** Successful implementation requires coherence among several plans and priorities

### Guiding Questions:

- How are stakeholders working towards a shared understanding of their roles and responsibilities to support implementation.

2. See portal for larger copy of the above diagram (Planning Templates/Visual).

3. Have groups explore information from the various systems/sources identified above as it relates to one identified school goal. Look for strategies, perspectives, programs, resources, and measurements that could be aligned with the school level goal.

4. Have groups share findings with the larger group and/or write up a summary/suggestions for the school planning Core Team.

NOTE: *If your school has multiple goals different groups can be work on different goals simultaneously .*
